DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
Manual Target/Aircraft Flight Status Report	DI-MISC-81305

3. DESCRIPTION/PURPOSE

3.1 The Manual Target/Aircraft Flight Status Report is used as an interim record of flight status data during computer downtime.
3.2 The report documents data from each target/aircraft flight for analytical, historical, and contractual purposes. It is an adjunct to an automated system and becomes effective as defined by the applicable Statement of Work when interruptions occur in the automated system.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
930128	A/MICOM		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.
7.2 The report shall constitute "interim", partial records of the total data to be maintained by the contractor for purposes of backloading the Automated Target/Aircraft Reporting System when that system is restored to operable condition.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		A6881

10. PREPARATION INSTRUCTIONS

10.1 Format. The Manual Target/Aircraft Flight Status Report format shall be contractor selected. Unless effective presentation would be degraded, the initially used format arrangement shall be used for all subsequent submissions.

10.2 Content. The Manual Target/Aircraft Status Report shall contain the following data on each Target/Aircraft flight:

a. Flight number.

b. Flight date.

c. Uptime and downtime.

d. Target identification, including type, serial number, and configuration.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Block 10, PREPARATION INSTRUCTIONS (Continued)

e. Range used.

f. Purpose: Accurate identity of unit, user, weapon system supported.

g. Foreign Military Sales customer and case number.

h. Engine serial number.

i. Pre-launch checks.

j. Mission cancellation: Identify canceling agency (customer, contractor, government, etc.) by name and agency.

k. Launch conditions.

l. Remote control.

m. Target Tracking Control System identity and performance.

n. Target performance.

o. Flight data.

p. Termination reason.

q. Recovery.

r. Weather.

s. Impact terrain.

t. Retrieval method.

u. Target damage.

v. Mission rating.

w. Augmentation equipment used.

x. Preflight quality assurance inspection and approval certification.

y. Remarks: Brief description of mission results, unusual events, safety details if unsatisfactory mission, etc.
