TECHINICAL INFORMATION FILE OF SUPPORT EQUIPMENT

The MIL-HDBK-300N, dated 28 April 2016, database hyperlink has been disabled. The AIR FORCE has evaluated the content of the database and concluded that it only contained a fraction of the support equipment out in the field. Furthermore, the process procedure for inputting additional support equipment into the database was antiquated.

The HDBK database is currently under reconstruction by AFLCMC/LZSA, whom is actively working to construct a modernized version for deployment while taking into account those support contractors whom lack CAC access.

Once reconstruction has been completed, the database hyperlink will be enabled.
