\# Approximate

MATERIAL: Funnels, stems, stoppers and stopcocks shall be borosilicate glass in accordance with ASTM E438, Type I, Class A.

Stopcock plugs shall be of borosilicate glass as per specification above or polytetrafluoroethylene in accordance with Federal Specification L-P-403.

DESIGN: Funnel shall be symmetrical in shape with stem and stopper, and fitted with stopcock. Funnel shall have roughened area suitable for marking. Stopcocks shall have a leakproof fit with the funnels with which they are originally supplied. Stopcock plug shall be provided with a retaining device to prevent accidental dislodging. Funnel shall be in accordance with the appropriate portion of Federal Specification NNN-F-800.

NOTES:

1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
2. For design feature purposes, this standard takes precedence over procurement documents referenced herein.
3. Referenced documents shall be of the issue in effect on date of invitations for bid.
4. FSCM: 14674, 18575, 22527, and 75278.
