Ⓑ

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document when applicable.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T17:49Z
Check the source to verify that this is the current version before use.

(B) NOTES:

1. MATERIAL: Material shall be in accordance with ANSI B16.3.
2. PROTECTIVE COATING: Fittings may be black finish or zinc coated in accordance with ANSI B16.3.
3. THREADS: Street elbows shall be threaded with American Standard Taper Pipe Threads (NPT) in accordance with Screw-Thread Standards for Federal Services Handbook H-28.
4. DIMENSIONS: All dimensions are in inches unless otherwise specified.
5. PART NUMBER: The MS part number consists of the MS number, the dash number, and the coating identification letter.

   Examples:

   MS39230-1 represents a 1/8-inch elbow, zinc coated.
   MS39230-1B represents a 1/8-inch elbow, black finish.

6. For design feature purposes, this standard takes precedence over procurement documents referenced herein.
7. Referenced documents shall be of the issue in effect on date of invitations for bid.
8. Metal thickness at no point shall be less than 90 percent of the thickness given in the table.
