COMMERCIAL ITEM DESCRIPTION

BOTTLE, SCREW CAP

The General Services Administration has authorized the use of this Commercial Item Description.

This commercial item description covers the requirements for a 2-1/2 gallon capacity jug with pouring spout and handles.

Salient characteristics.

Shall be a 2-1/2 gallon plastic dispensing jug with screw cap closure, a pouring spout with captive plug, a carrying handle and a bottom mounted handle. Shall be fabricated of low-density polyethylene. The screw cap shall be fabricated from polypropylene.

Shall be cylindrical and symmetrical in shape except for projections due to the handles and pouring spout. Shall have a wide mouth opening at the top, with a 2-1/2 inch minimum inside diameter and a shoulder below the bottom level of the neck. The neck shall have a continuous type thread finish to accommodate the screw cap. The 2-1/2 gallon fill of the jug shall not extend above the bottom level of the neck.

The carrying handle shall be located between the shoulder and neck of the jug. The lower handle shall be located below the carrying handle at a level towards the bottom of the jug. The lower handle shall be parallel to the ground. The pouring spout shall be located on the shoulder of the jug, on the side that is opposite to the one with the lower carrying handle. The pouring spout shall include a captive plug. The outside diameter of the cylinder below the shoulder shall be 7-1/2 to 10 inches. The overall height without screw cap closure shall not exceed 16-1/2 inches.

The jug shall be supplied with a one-piece molded 83 mm polyethylene screw cap closure with a continuous type thread finish. With the jug filled to capacity and the screw cap applied by hand, the jug shall show no evidence of leakage. To provide for firm gripping for removing and tightening of the bottle the outside vertical surface of the closure shall have ribs.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. The screw cap bottle shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One bottle, screw cap, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/ contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document*(s)* or to amend contractual requirements.
