4.2.4.1.1, line 3, after "match": Add "period", and delete remainder of sentence.

Add the following new paragraph:

"4.2.4.1.2 Shade matching procedure. The thread sample shall be wound or prepared for examination in a manner similar to that for the standard shade sample. The sample shall be compared to the standard sample under artificial daylight at 7000 ± 500 K, and less than a good match shall be a test failure. The sample shall also be compared to the standard sample under incandescent lamplight at 2850 ± 100 K, and less than a good approximation shall be a test failure.
