COMMERCIAL ITEM DESCRIPTION

ALUMINUM HYDROXIDE GEL AND MAGNESIUM CARBONATE SUSPENSION

The General Services Administration has authorized the use of this commercial item description.

This Commercial Item Description covers Aluminum Hydroxide Gel and Magnesium Carbonate Suspension for use in the symptomatic relief of upset stomach associated with hyperacidity.

Salient characteristics:

Shall be Aluminum Hydroxide Gel and Magnesium Carbonate Suspension.

Each 15 ml shall contain 95 mg of Aluminum Hydroxide, 412 mg of Magnesium Carbonate, sodium alginate and other suitable ingredients acceptable to the FDA.

Each 15 ml shall contain not less than 87.0 percent and not more than 114.0 percent of the required amount of Aluminum Hydroxide when assayed by a suitable, accurate and reproducible assay method. Shall contain not less than 88.8 percent and not more than 111.4 percent of the required amount of Magnesium Carbonate when assayed by a suitable, accurate and reproducible method.

Each 15 ml shall have an acid neutralizing capacity of not less than 5 mEq and shall result in a pH of 3.5 or greater at the end of the initial 10 minute period when tested using the OTC Acid Neutralizing Capacity Test.

Suspension shall contain not more than 100 aerobic microorganisms per milliliter when tested using a suitable, accurate, and reproducible method.

Suspension shall meet the requirements for the test for absence of the organisms listed below under the USP Microbial Limits Tests (61):

Escherichia coli
Salmonella
Staphylococcus aureus
Pseudomonas aeruginosa
Pseudomonas fluorescens
Survey Test - Mold and yeast

FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Not less than 16 months of the expiration dating period shall remain at time of delivery to the Government.

Workmanship. Suspension shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT). One bottle containing 12 fl oz (355 ml), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
