COMMERCIAL ITEM DESCRIPTION

BRETYLIUM TOSYLATE INJECTION

The General Services Administration has authorized the use of this Commercial Item Description.

Salient characteristics.

Shall be Bretylium Tosylate Injection.

All ingredients shall be of pharmaceutical grade.

Shall contain 50 mg of Bretylium Tosylate per ml of solution within the applicable assay limits of the injection.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit.

For Size 1 - Package (PG). Shall be supplied 10 ml in a commercially available ampul. One package containing 20 ampuls, as specified, constitutes one unit.

For Size 2 - Package (PG). Shall be supplied 10 ml in a commercially available clear, colorless, cylindrical, flat bottom, graduated, threaded, rubber stoppered glass vial with plastic plug cap. Each vial shall be packaged together with a translucent, plastic vial injector containing a plastic cylinder, threaded at one end and attached to the base of the injector barrel at the other, and a 21-22 gage x 1 1/2 inch needle (exposed) extending the length of and projecting from the barrel. The injector shall be sealed with a plastic needle guard and a plastic snap cap. The fluid pathway of all components shall be sterile. One package containing 10 syringe-needle units, as specified, constitutes one unit.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

For Size 3 - Each (EA). One prefilled syringe-needle unit containing 10 ml, as specified, constitutes one unit.

For Size 4 - Vial (VI). One vial containing 10 ml, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
