COMMERCIAL ITEM DESCRIPTION

TRIMMER, ANIMAL TOENAIL

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification GG-T-675 dated 3 December 1958.

This commercial item description covers an animal toenail trimmer.

Salient characteristics:

The trimmer shall be a veterinary toenail trimmer suitable for safely cutting dog toenails. The trimmer shall consist of two handles, a movable cutting blade, a stationary blade and a spring, to be constructed in accordance with Figure 1.

The stationary blade shall have a cutout to allow for insertion of the toenail. The handles shall be connected by the spring such that as pressure is exerted on the handles, the movable blade slides flush underneath the stationary blade. Upon release of pressure, the handles shall return to their original position.

The blades shall be fabricated from AISI 1074 cold-rolled spring steel. The cutting blade shall have a Rockwell hardness of C55-C60. The handles and spring shall be fabricated from a suitable metal or alloy, treated or plated to be corrosion-resistant. The stationary blade shall have a Rockwell hardness of C44-C48.

Workmanship. The item shall be processed in such a manner as to be uniform in quality and free from defects that will affect life, serviceability, or appearance.

PRODUCT QUALITY LEVEL

Visual and dimensional examination. Shall be examined to verify that design, construction and workmanship are in accordance with applicable requirements.

Materials. The supplier shall be responsible for performing tests to assure that materials are in accordance with the requirements specified.

Unit. Each (EA). Each trimmer, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for test purposes shall be one trimmer.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
