COMMERCIAL ITEM DESCRIPTION

CHEMICAL COOLING PAD

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers a disposable chemical pad which provides a therapeutic level of coolness for first aid or medical treatment for which cold is recommend.

Salient characteristics:

The pad shall be a disposable chemical pad which can be activated by an adult person without a mechanical device to provide a therapeutic level of coolness.

The pad shall consist of one inner pouch filled with water and an outer pouch filled with chemical. Ammonium nitrate pellets or pellets of urea and potassium chloride shall be the chemical agent used.

Overall dimensions of the pad shall be 5 to 7 inches wide by 7 to 10 inches long, exclusive of the heat seals.

When activated in an ambient environment of 72°F. and agitated to thoroughly mix water and chemicals, the pad shall reach its minimum temperature, which shall be from 18°F to 32°F., within 5 minutes and shall rise to no greater than 37°F. during the period 30 minutes after activation.

The outer pouch shall be low density polyethylene, a laminate of paper and polyethylene, or laminate of polyester and polyethylene. The outer pouch shall withstand direct pressure of at least 200 pounds, gradually applied to an 8 x 10 inch plate placed on top of the pad, without rupturing or leaking. Activation of the pad by squeezing or striking shall not result in pinholes, rupturing, leaking, or weak spots in the outer pouch.

AMSC N/A FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

The inner pouch shall be a laminate of mylar and medium density polyethylene or low density polyethylene tubing. Bursting strength of the inner pouch to activate the pad shall be between 80 and 170 pounds.

Labeling shall meet the requirements of the Federal Food, Drug and Cosmetic Act. The label of the immediate container and the unit package shall be those usually furnished by the supplier as commercial practice. Each outer pouch, or securely attached label, shall be permanently and legibly marked with activating instructions and a cautionary statement that pad should be wrapped in a towel prior to activation and during use and, should there be accidental exposure of skin to the cooling solution, the affected area should be flushed with water. The cautionary statements shall indicate that swallowing the solution would be harmful and shall give a remedy. Labeling on each pad shall warn against exposure to extreme cold temperatures to prevent the water from freezing. Additional statements that the pad should not be exposed to excessive heat and kept out of the reach of children is acceptable.

Workmanship. The chemical cooling pad shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing four Type I chemical cooling pads, or twelve Type II pads, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105 with an AQL of 2.5 (percent defective) and an inspection level of S-3. The unit of product for examination purposes shall be one chemical cooling pad as specified in this description.

Defects.

Plastic pouches not free of holes, tears, cracks.

Pad already activated, and/or water in outer pouch.

Seams not completely heat sealed.

Inner pouch not filled with water.

Outer pouch has little or no chemical.

Heat seals not straight, not smooth and uniform in width.

Pad not free of dirt, grease, loose foreign matter.

Directions for use and/or cautionary marking missing.

Sampling for tests. Sampling for tests (dimensional) shall be conducted in accordance with MIL-STD-105, with an AQL of 2.5 (percent defective) and inspection level of S-1. The unit of product for test purposes shall be one chemical cooling pad.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is enccuraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
