INTERIM COMMERCIAL ITEM DESCRIPTION

MASK, ORONASAL

The General Services Administration has authorized the use of this interim commercial item description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

This interim commercial item description covers an oronasal mask suitable for mouth to mask resuscitation procedures.

Salient characteristics:

The mask shall be transparent, adult size, with a soft inflatable cuff, a semirigid dome, an oxygen inlet and a mouthpiece for mouth to mask resuscitation procedures

The soft inflatable cuff shall form an effective seal and conform well to the patient's face. The oxygen inlet shall accept standard size oxygen tubing. The male mouthpiece shall have a standard 15 mm adapter for connection to a 22 mm resuscitation bag. A headstrap to secure the mask to the patient's face shall be provided.

The mask shall be suitable for disinfection and shall not be adversely affected through the use of cold chemical sterilizing agents.

The mask cuff shall be deflatable and the mask shall be capable of folding into a plastic case which shall be provided with the mask. Each mask shall be supplied with instructions for use.

Workmanship. The mask shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One oronasal mask, as specified, constitutes one unit.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6515-01-215-4177

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.
