COMMERCIAL ITEM DESCRIPTION

SPONGE, SURGICAL, GAUZE, BRONCHOSCOPIC

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description cover a bronchoscopic sponge.

Salient characteristics:

Shall be a sterile, disposable, radiopaque, gauze sponge suitable for use during bronchoscopic procedures.

The sponge shall be made by starting with one end of a strip of gauze and wrapping the gauze around itself. The free end of the gauze shall be sewn to the sponge. The finished sponge shall be 1/4 inch wide by 3/4 inch (6 mm by 19 mm) long and shall not have any ravelings or loose threads. The gauze shall meet all requirements for Absorbent Gauze, USP, except for thread count and weight.

Each sponge shall contain a radiopaque element which shall be opaque to X-rays and shall be inert and nontoxic. The radiopaque element shall be capable of withstanding steam sterilization at 250°F for one hour without bleeding or showing signs of deterioration.

The sponge shall meet any FDA requirements for safety/toxicity applicable for invasive/implantable devices.

Testing and examination shall be conducted to determine compliance with all specification requirements. Test methods shall be suitable, accurate and reproducible.

Workmanship. The sponges shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). Ten sponges shall be fastened on a safety pin for ease of handling and shall be supplied in a sealed peel-open type container which will allow aseptic handling and maintain sterility of contents unless container is damaged or opened. One package containing 20 peel-open type containers (200 sponges), as specified, constitutes one unit.

AMSC/NA FSC 6510

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6510-01-008-3410	SPONGE, SURGICAL, Radiopaque, Gauze 1/4 by 3/4 inch, (6.4 by 19.1 mm), 200s

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
