COMMERCIAL ITEM DESCRIPTION

BAG, TUBE FEEDING, Sterile

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers sterile, disposable tube feeding bags for use during wound irrigation, tube feeding and postoperative bladder irrigation procedures.

Salient characteristics.

General. The tube feeding bag shall be a clear, sterile, disposable plastic bag suitable for various hospital irrigation procedures.

Characteristics. The tube feeding bag shall have a capacity not less than 1500 cc. It shall be graduated in 50 cc increments and as a minimum be labeled every 100 cc's. Each tube feeding bag shall have a flexible drip chamber at the distal end. The proximal end of the tube feeding bag shall have a handle. A mouth with a slip-lock closure shall be provided at the proximal end of the tube feeding bag. The mouth shall be at least 4 inches wide.

Clear plastic tubing shall be attached to the distal end of the tube feeding bag. This tubing shall be 19 ± 1 inches long with a 7/32 ± 1/16 inch diameter. A male Luer slip adapter shall be furnished on the distal end of the tubing. The adapter shall conform to the requirements of ANSI/HIMA MD70.1. The adapter shall facilitate connection to feeding tubes, catheters or similar items. The tubing shall have a multiple-position shut-off clamp for controlling fluid flow.

Material. Each component that is in contact with the fluid shall be constructed of translucent plastic. When polyetheylene is used, it shall conform to the requirements of ASTM F 639.

Sterility. Each tube feeding bag shall be sterilized in accordance with the USP.

Workmanship. Each tube feeding bag shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing fifty individually packaged tube feeding bags, as specified, constitutes one unit. Each individual package shall be capable of maintaining sterility of contents unless the package is damaged or opened.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for test purposes shall be one tube feeding bag

Contractor certification The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract

Regulatory requirements

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror contractor shall comply, and be responsible for compliance by its subcontractors suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practical.
