COMMERCIAL ITEM DESCRIPTION

TRIETHANOLAMINE POLYPEPTIDE OLEATE-CONDENSATE SOLUTION, OTIC

The General Services Administration has authorized the use of this commercial item description in preference to MIL-T-37627.

This Commercial Item Description covers Triethanolamine Polypeptide Oleate-Condensate Solution, Otic, for use as a ceruminolyte agent.

Salient characteristics:

Shall be Triethanolamine Polypeptide Oleate-Condensate Solution, Otic.

Shall be an otic solution (cerumenolytic agent) containing 10 percent Triethanolamine Polypeptide Oleate-Condensate in propylene glycol. Shall contain a suitable preservative.

The otic solution shall meet the following requirements:

Specific gravity. Shall have a specific gravity of not less than 1.035 percent and not more than 1.050 at 25°C when determined using a pycnometer or specific gravity balance.

pH. Shall have a pH of not less than 5.0 and not more than 6.0 at 25°C, using the USP method.

Water content. Water content shall be not more than 3 percent, when determined using the Karl Fischer method as described in the USP.

Viscosity. Shall be not less than 50 centipoises and not more than 90 centipoises at 25°C, when determined using a suitable apparatus.

Iodine value. Shall be not less than 2.5 and not more than 3.5, when determined using the USP method for iodine value.

Total nitrogen. Shall be not less then 0.75 percent and not more than 0.95 percent when determined using the USP Kjeldahl method.

FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Not less than 32 months of the expiration dating period shall remain at time of delivery to the Government.

Workmanship. Solution shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package consisting of one 6 ml bottle of solution with a suitably-wrapped, blunt-end dropper, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
