3.2.7, delete and substitute:

"3.2.7 Slide fastener. The slide fastener shall be brass, conforming to type I, style 1, size M, short tab pull of V-F-106 except that the tape shall be 9/16 ± 1/32 inch wide. The slide fastener shall be furnished with a staple or solid type bottom stop and open end top stops, and shall be of sufficient length to comply with operation 6 of table II. When a solid type bottom stop is used, it shall abut the bottom of the slide fastener chain. All components of the slide fastener shall be from the same contractor. The finished slide fastener shall not shrink more than 2 percent."

3.2.7.1, delete and substitute:

"3.2.7.1 Slide fastener tape. The slide fastener tape shall be woven from yarns of 100 percent textured polyester or from intimate blends of nylon/cotton or polyester/cotton in both the warp and the filling. The color of the tape for the type I trousers shall be Olive Green 507. The tape shall show colorfastness to laundering equal to or better than the standard sample. The color of the tape for the type II trousers shall approximate the color of the basic material specified for the type II trousers. When no standard sample is available the tape shall show "good" fastness to laundering. The tapes shall be given an approved durable press treatment, consisting of a suitable catalyzed and cured system. Hand modifiers and a wetting agent may be used to facilitate processing. Durable press resins other than those approved for use are prohibited."
