MIL-O-83990 (USAF)
AMENDMENT 1
11 MARCH 1976

MILITARY SPECIFICATION

OVEN, THERMAL DRYING ELECTRIC

This Amendment forms a part of Military Specification MIL-O-83990 (USAF) dated 4 September 1974.

Page 2

Add new paragraph: "3.2.1.1 Noise. As measured at the operator's position, noise level of the equipment in any mode of operation shall not exceed 84dBA. Equipment shall otherwise comply with the noise limitations of OSHA, Part 1910.95."

Page 6

Paragraph 3.4.14.1, line 2. At the end of the sentence add, "and shall comply with NFPA No. 86A, Article 570".

Paragraph 3.4.15, line 9. After NFPA No. 86A add, "Article 330".

Paragraph 3.4.17, line 6 and line 7. Delete the words "Article 530" and substitute "No. 86A, Article 570".

Paragraph 3.4.17, line 7. Add the following sentence at the end of the paragraph, "The temperature sensing element and the electronic switching element of the excess temperature cut-out shall be separate and independent from other temperature controls."

Paragraph 3.4.18, line 3. Delete the words "The National Fire Code" and substitute "NFPA No. 86A".

Page 8

Paragraph 4.5, line 5. Add the following sentence at the end of the paragraph "This should include such things as warning signs and cautions, need, type, function and location of safety devices, removal or avoidance of sharp edges and corners, protection of and from wiring, plumbing, and functional and moving parts, and noise."

Page 9

Paragraph 4.6.7, line 7. Add the following sentence at the end of the paragraph, "The test shall be performed with the fresh air dampers closed."
