COMMERCIAL ITEM DESCRIPTION

EMOLLIENT LOTION

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-E-37575 which is cancelled.

Salient characteristics.

Shall be Emollient Lotion.

Shall be Emollient Lotion prepared using a method found acceptable to the FDA.

Shall be a pleasantly scented or unscented, homogeneous, non-staining, oil in water or water in oil emulsion suitable for therapeutic use as a skin lubricant and moisturizer. Shall contain as a minimum the following ingredients in sufficient quantities: water, a suitable oil, an emulsifier and a preservative. Other ingredients such as emulsion stabilizers, thickening agents, emollients, surfactants, humectants, coloring agents and fragrances may be added in sufficient quantities to enhance the product.

Materials used in manufacture shall be of a pharmaceutical grade.

Shall have a pH between 5.0 and 8.1 when determined potentiometrically at 25°C using the USP method.

Shall have a viscosity of 500 CPS to 1100 CPS at 25°C plus or minus 2°C using a Brookfield Viscometer Model LVT (or equivalent) with spinde No. 3 and speed 60 RPM.

Shall have a specific gravity of 0.9300 to 0.9950 at 25°C when determined by a suitable, accurate and reproducible method.

AMSC N/A FSC 6508

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. The Emollient Lotion shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT).

For Size 1, one plastic squeeze bottle with dispenser cap or a bottle with a dispensing pump containing 3.5 to 4 fl oz, as specified, constitutes one unit.

For Size 2, one plastic squeeze bottle with dispenser cap or a bottle with a dispensing pump containing 240 ml, as specified, constitutes one unit.

For Size 3, one plastic squeeze bottle with dispenser cap or a bottle with a dispensing pump containing 15 to 16 fl oz, as specified, constitutes one unit.

For Size 4, one bottle with or without a dispensing pump containing 1 gallon (3.78 liters), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, a-amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Numbers are covered by this document:

NSN	ITEM IDENTIFICATION	SIZE
6508-01-244-6517	EMOLLIENT LOTION, 4 fl oz (118 ml).	1
6508-01-019-7181	EMOLLIENT LOTION, 240 ml.	2

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge (DO NOT STAPLE), and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
