COMMERCIAL ITEM DESCRIPTION

BOX, FOLDING (Spectacle Mailing)

The General Services Administration has authorized the use of this Commercial Item Description.

This commercial item description covers three sizes of folding boxes suitable for mailing spectacles in their spectacle cases, supplied in the flat form.

Salient characteristics:

Shall be of the following sizes as specified:

Size	Inside dimensions (inches)		
a	Length	6-1/2	+1/8, - 1/16
	Width	2-1/2	+1/8, - 1/32
	Depth	1	+1/8, - 1/32
b	Length	6-1/2	+1/8, - 1/32
	Width	2-1/2	+1/8, - 1/32
	Depth	1-3/4	+1/8, - 1/32
c	Length	6-1/2	+1/8, - 1/32
	Width	2-1/2	+1/8, - 1/32
	Depth	3-5/8	+1/8, - 1/32

The boxes shall be made of 200 pound test corrugated fiberboard. The inside facing shall be kraft-colored. The outside facing shall be white or mottled white.

The boxes shall be made from a flat, one piece, scored and die-cut form blank capable of being readily folded along score lines into a rigid box by one person without using any auxiliary fastening devices or materials. The locking tabs on the end panels shall maintain the box in the rigid assembled form by properly fitting into the locking slits.

AMSC N/A FSC 8115

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

When assembled, the bottom of the box and lid shall extend to overlap the ends of the box. The closure flap on the lid shall close inside the box and extend to the bottom of the box when closed.

All dimensions of the form blank shall be accurately cut, scored and slotted so that the erect box panels fit closely without undue binding. The score lines shall show no continuous visual surface break splits completely through the inner or outer facing before and after folding.

The boxes shall be supplied with a set of instructions for each package of 100 flat form blanks. Shall be void of any marking on the outside facing of the box. Shall be clean and free of tears, cuts, holes, scuff marks, blisters, ply separation and splices. Edges shall be clean cut. The facings shall be smooth.

Workmanship. The boxes shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One hundred flat form blanks of one size only shall be clean, dry and packaged in a suitable fiberboard carton. One package containing 100 boxes (flat form blanks) of one size only, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after the delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Examination. Examination shall be conducted to determine compliance with specification requirements.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105 and as specified herein. Unit of product for examination purposes shall be one folding spectacle box as specified. Sampling shall be inspection level II with an Acceptable Quality Level (AQL) of 1.0.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified. Unit of product for test purposes shall be one folding spectacle box. Sampling shall be inspection level S-2 with an AQL of 1.0.

Contractor certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commerical Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be as specified in the contract and/or order.
