Material: Material shall be steel, type II, carbon-molybdenum, identification symbol 4 in accordance with Specification MIL-S-1222.

Dimensions: All dimensions are in inches.

Threads: The threads shall be in accordance with Handbook H28.

Use: These nuts are intended for heavy duty high temperature machinery applications.

Referenced documents shall be the issue in effect on date of invitations for bids.

In case of conflict with any referenced document specified herein, this standard shall govern.

APPROVED 23SEP1957 REVISED

NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
