MILITARY SPECIFICATION

FUROSEMIDE INJECTION, USP

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Furosemide Injection, USP.

1.2 Classification. The Injection covered by this specification shall be one of the following sizes (See 6.2):

Size 1 - 10 mg per cc, 10cc
Size 2 - 10 mg per cc, 2cc

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein:

SPECIFICATIONS

Federal

PPP-C-186	Containers, Packaging and Packing for Drugs, Chemicals, and Pharmaceuticals. (See 6.3)

STANDARDS

Federal

FED-STD-142	Parenteral Preparations.

Military

MIL-STD-105	Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	Marking for Shipment and Storage.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE,
FOOD AND DRUG ADMINISTRATION

Federal Food, Drug, and Cosmetic Act and
Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U.S. PHARMACOPEIAL CONVENTION, INC.

Pharmacopeia of the United States.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Furosemide Injection USP, and shall be in accordance with all applicable requirements of FED-STD-142, and as specified herein:

S2 Classification. Shall be type I, Class 1.

Shall be suitable for intramuscular or intravenous use.

S5.2.2 The following is added to this paragraph:

Shall be a sterile solution containing 10 mg per ml of Furosemide (4-Chloro-N-furfuryl-5-sulfamoylanthranilic Acid), within the applicable assay limits for the injection.

3.2 Potency Period. The potency period (Expiration Dating Period) shall be 42 months.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of 4 years after delivery of the supplies to which such records relate.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Sampling. Sampling shall be conducted in accordance with FED-STD-142.

4.3 Tests and examination. Tests and examination shall be performed to determine compliance with all requirements of the document and all referenced documents.

4.4 Examination of Preparation For Delivery. An examination shall be made to determine whether the packaging, packing, and marking comply with the requirements of section 5. Defects shall be scored as specified in table I. Sampling shall be in accordance with MIL-STD-105. The sample unit shall be one container fully prepared for delivery. The lot shall be the number of containers offered for inspection at one time. The inspection level shall be S-2 and the acceptable quality level shall be 4.0 defects per hundred units.

Table I. Examination of Preparation for Delivery

Examination	Defect
Containers	Not as specified.
Quantity	Quantity in interior packages and shipping containers not as specified.
Packaging and Packing Materials	Any component missing or damaged.
Workmanship	Inadequate application of components such as incomplete closure of container flaps, tape improperly applied, or containers distorted.
Markings	Omitted, incorrect, illegible, improper size, location, sequence, or method of application.

5. PREPARATION FOR DELIVERY

5.1 Preparation for delivery shall be in accordance with all applicable requirements of PPP-C-186. When an automated procedure is used in order to comply with leakage test B (paragraph 4.3.1.2) of PPP-C-186, the test may be modified by deleting the first sentence.

5.2 Packaging. Packaging shall be level A or C as specified (see 6.1).

5.2.1 Unit of issue. One package containing five 2 cc or five 10 cc ampuls, as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container shall be a commercially available ampul considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Unit package. Each unit, five ampuls, shall be packaged as specified in 5.2.5 of PPP-C-186.

5.2.2.3 Intermediate package. Ten unit packages containing 2 cc ampuls shall be packaged as specified in 5.2.5.7.1 of PPP-C-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C as specified (see 6.1).

5.3.1 Level A. Sixty unit packages containing 10 cc ampuls or twenty intermediate packages containing 2 cc ampuls shall be packed in an exterior container as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Sixty unit packages containing 10 cc ampuls or twenty intermediate packages containing 2 cc ampuls shall be packed in an exterior container as specified in 5.4.3.1.1 of PPP-C-186. Liners and pads shall not be required for 2 cc ampuls.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the prupose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act, and shall include the information required below.

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.

5.4.1.2 Unit packages. Each unit package label shall bear the following:

(a) labeling information in accordance with commercial practice.

(b) The National Stock Number.

(c) the expiration date.

NOTE: The National Stock Number shall not be preceded by any prefix.

Strip labeling may be used.

Label adhesion test shall not apply.

5.4.2 Intermediate package. Each intermediate package shall be marked in accordance with 5.5.3 and 5.5.8.1 of PPP-C-186. In addition, marking shall include the legend:

"STORE AT CONTROLLED ROOM TEMPERATURE (59° - 86° F.)."

Check the source to verify that this is the current version before use.

5.4.3 Exterior container. Exterior container shall be marked in accordance with 5.5.4 and 5.5.8.1 of PPP-C-186. Marking shall include the legend:

"STORE AT CONTROLLED ROOM TEMPERATURE (59° - 86° F.)."

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Number and date of this specification.
(b) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (see 5.2 and 5.3).

6.2 This specification covers the following item:

National Stock Number	Item Identification
6505-00-148-9814	FUROSEMIDE INJECTION, USP, 10 mg per cc, 10cc, 5s
6505-00-435-0377	FUROSEMIDE INJECTION, USP, 10 mg per cc, 2cc, 5s

6.3 All references to PPP-C-186 refer to Interim Federal Specification PPP-C-00186B which is mandatory for use until superceded by a revision.

6.4 This specification does not cover all types, classes, grades, or sizes of the commodity indicated by the title of this specification, or those which are commercially available, but is intended to cover the types which are normally procured to meet Military requirements.
