TIER I ADOPTION NOTICE

ISO/IEC/IEEE 15288-2023, “Systems and software engineering – System life cycle processes”, was adopted on 01 June 2023 for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the DoD Adopting Activity at OUSD(R&E), Systems Engineering and Architecture, Deputy Director, SE Policy and Guidance, 4800 Mark Center Drive, Suite 16F09-02, Alexandria, VA 22308.

ISO/IEC/IEEE 15288-2023 establishes a common process framework for describing the lifecycle of systems created by humans, defining a set of processes and associated terminology from an engineering viewpoint. These processes can be applied to systems of interest, their systems elements, and to systems of systems. Selected sets of these processes can be applied throughout the stages of a system’s life cycle. This is accomplished through the involvement of stakeholders, with the goal of achieving customer satisfaction.

This standard should be utilized along with ISO/IEC/IEEE 24748-7 Standard for Application of Systems Engineering on Defense Programs and ISO/IEC/IEEE 24748-8, Standard for Technical Reviews and Audits on Defense Programs which implement systems engineering as well as technical reviews and audits requirements for DoD programs.

ISO/IEC/IEEE 15288-2023 was prepared by Joint Technical Committee ISO/IEC JTC 1, Information Technology Subcommittee SC 7, Software and Systems Engineering, in cooperation with the IEEE Computer Society Systems and Software Engineering Standards Committee, under the Partner Standards Development Organization cooperation agreement between ISO and IEEE. Copies of this document may be purchased from the Institute of Electrical and Electronics Engineers TechStreet, 3025 Boardwalk Drive, Suite 220, Ann Arbor, MI 48108 U.S.A. or via the web at http://www.techstreet.com.

Custodians:
