# COMMERCIAL ITEM DESCRIPTION

## DRESSING, BURN

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers a sterile burn dressing suitable for treating large burns.

Salient Characteristics:

The sterile dressing shall be suitable for use in the treatment of burns involving large areas of the body. The dressing shall be white excluding backing and shall be sterile when tested with a biological indicator. Each pad shall appear neatly folded and be free of foreign debris, i.e., dirt, grease, etc., and loose threads and lint shall be kept at a minimum. Each dressing shall have sufficient absorbency to retain approximately three liters of liquid. The dressing shall be 24 inches +/- 2 inches by 36 inches +/- 3 inches, and made of the following:

First Alternate

| | | |
|---|---|---|
| (a) | Facing | - Absorbent Cotton Gauze, USP, Type I. |
| (b) | Wadding | - Absorbent Cellulose (30 plies). |
| (c) | Backing | - Color free polyethylene, approximately 3 mil in thickness. |
| (d) | Thread | - White cotton, Ticket A. Type ICI, 3 ply, Federal Specification V-T-276. |
| (e) | Finishing | - The gauze facing shall be wrappped around the wadding prior to stitching. The gauze ends shall be folded in, to eliminate raw edges. Stitching shall include the gauze facing, absorbent cellulose, and polyethylene backing and run along all edges. The polyethylene backing shall cover all folded in edges of the gauze. Stitches shall number 6 to 12 stitches per inch. The stitch line shall be located in from the edges at 1 (+ 1/2) inch. The stitches shall be a lock stitch. |

AMSC/NA FSC 6510

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

or Second Alternate

(a) Facing - Two (2) layers of 3 mil, high density, perforated polyethylene sheeting.
(b) Wadding - Compressed, absorbent cellulose, capable of absorbing at least ten times its weight in water.
(c) Backing - Color free polyethylene sheeting, at least 3 mils thick.
(d) Finishing - The polyethylene burn pad dressing components shall be heat-seal bound on all edges. The heat seal shall be smooth with even edges, and the cellulose filler shall not bunch, separate or wad when wet.

Workmanship. The Dressing shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). Dressing shall be individually packaged in a convenient tear-open or peel-open package capable of maintaining sterility of contents unless damaged or opened. One package containing 15 individually packaged dressings, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item. Testing and examination shall be conducted to determine compliance with all specification requirements. Test methods shall be suitable, accurate, and reproducible.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for examination shall be one individually packaged dressing. Unless otherwise specified, sampling for examination shall be conducted at inspection level I, AQL 2.5 maximum percent defective.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

| NSN | ITEM IDENTIFICATION |
|---|---|
| 6510-01-153-2857 | DRESSING, BURN, 24 by 36 inches (60.96 by 91.44 cm), 15s |

**INSTRUCTIONS**: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

*NOTE*: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
