INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

INK: MARKER, FELT TIP

This interim amendment was developed by the General Services Administration Federal Supply Service, Standardization Division, Washington, D. C. 20406 based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification TT-I-544, dated February 23, 1956.

Section 2: Delete entire section and substitute:

2. APPLICABLE DOCUMENTS

2.1 The following documents of the issues in effect on the date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein.

Federal Specifications:

GG-M-117 - Marker, Fountain Type, Felt Tip.
PPP-B-636 - Box, Fiberboard.
PPP-C-96 - Cans, Metal, 28 Gage and Lighter.
PPP-T-97 - Tape; Pressure-Sensitive Adhesive, Filament Reinforced.

Federal Standards:

Fed. Std. No. 123 - Marking for Domestic Shipment (Civil Agencies).
Fed. Test Method Std. No. 191 - Textile Test Methods

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

(Single copies of this specification and other Federal Specifications required by activities outside the Federal Government for bidding purposes are available without charge from Business Service Centers at the General Services Administration Regional Offices in Boston, New York, Washington, D. C., Atlanta, Chicago, Kansas City, Mo., Fort Worth, Denver, San Francisco, Los Angeles, and Seattle, Wash.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

Military Standards:

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 - Marking for Shipment and Storage.

(Copies of Military Specifications and Standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

Section 4, delete and substitute:

4. QUALITY ASSURANCE PROVISIONS

PAGE 3

Paragraph 4.4.4, delete third sentence and substitute "One specimen shall be exposed to light as described in method 5660 of Fed. Test Method Std. No. 191 and the other specimen retained but not exposed. Exposure periods shall be as follows: Black 24 hours, red 12 hours, blue, purple, and green 8 hours."

PAGES 3 AND 4

Section 5: Delete and substitute:

5. PREPARATION FOR DELIVERY

5.1 Packaging. Marking ink shall be packaged level A, B, or C, as specified in the contract or order (see 6.2).

5.1.1 Levels A and B. Marking ink shall be packaged in oval or rectangular cans conforming to type V of PPP-C-96, in 4 ounce or 1 pint size, as specified (see 6.2). Exterior coating of cans shall be plan A.

5.1.2 Level C. Marking ink shall be packaged in accordance with manufacturer's standard commercial practice.

5.2 Packing. Marking ink, packaged level A or C, shall be packed level A, B, or C, as specified in the contract or order (see 6.2).

5.2.1 Level A. Thirty-six 4 ounce or twelve 1 pint cans of marking ink shall be packed in overseas-type fiberboard boxes conforming to PPP-B-636, V3c or V3s. Ink furnished in 4 ounce cans shall be packed in individual cartons. Ink in 1 pint cans shall be packed in boxes that are provided with partitions and top and bottom pads. Tiers of 4 ounce cans shall be provided with fiberboard separators. Cans with protruding spouts shall be provided with top cell spacers or buffer pads. The design, number, and placement of pads shall eliminate movement of the cans and provide a slight clearance from the projecting spouts and cap from the inner walls of the box. Pads, partitions, and separators shall be grade W5 or W6 of PPP-B-636. Box closure, sealing, and strapping shall conform to the appendix to the box specification. In lieu of steel strapping, boxes may be reinforced with pressure-sensitive filament tape conforming to type IV of PPP-T-97, applied in accordance with the appendix thereto.

5.2.2 Level B. Marking ink shall be packed as specified for level A, except that boxes and cushioning material shall be class domestic and strapping will not be required.

5.2.3 Level C. Ink shall be packed in containers of the type, size, and kind commonly used for the purpose, in a manner that will insure acceptance by common carrier and safe delivery at destination. Shipping containers shall comply with the carrier rules and regulations applicable to the mode of transportation.

5.3 Marking.

5.3.1 Military agencies. In addition to any special marking specified in the contract or order, shipping containers shall be marked in accordance with MIL-STD-129. Unit containers shall be marked in accordance with 5.4.2.1.

5.3.2 Civil agencies. In addition to any special marking required in the contract or order, marking and labeling for civil agencies shall be in accordance with Fed. Std. No. 123, and as specified below.

5.3.2.1 Unit containers. Unless otherwise specified, unit containers shall be marked or labeled in accordance with Fed. Std. No. 123, including Federal Stock Number, name of commodity, color, quantity (4 oz. or 1 pint), contractor's or manufacturer's name and address, and date of manufacture (month and year).

5.3.2.2 Shipping containers. Unless otherwise specified, shipping containers shall be marked in accordance with Fed. Std. No. 123, including Standard Markings, and Special Markings (B) Date of pack (month and year) (F) Name and address of consignee and (G) Special handling markings.

5.4 Standard pack (civil agencies). The standard pack requirements for the commodity covered by this specification shall be as specified in 5.1.1 (level B), 5.2.2, and 5.3.2.

PAGE 4

Paragraphs 6.2, 6.4, Patent notice, MILITARY INTERESTS: Delete in their entirety and substitute:

6.2 Ordering data. Purchasers should select the preferred options permitted herein (see 3.3, 5.3.2.1, and 5.3.2.2) and include the following information in procurement documents specifying the color of ink required, type and size of container of ink, levels of packaging and packing and any special marking for shipment required (see 1.2.1, 3.3, 5.1 through 5.4).

MILITARY INTERESTS:

Army - GL
Navy - SA
Air Force - 85
