COMMERCIAL ITEM DESCRIPTION

LUBRICANT, OPHTHALMIC

The General Services Administration has authorized the use of this commercial item description.

This Commercial Item Description covers Ophthalmic Lubricant for use as an ocular lubricant.

Salient characteristics:

Shall be a sterile, bland, non-medicated ophthalmic ointment containing white petrolatum, mineral oil, anhydrous lanolin or nonionic lanolin derivatives and suitable preservatives.

The presence of the white petrolatum, mineral oil, anhydrous lanolin or nonionic lanolin derivatives shall be determined from the batch formulation sheet kept on file by the manufacturer.

The finished product shall meet the USP requirements and test for metal particles in ophthalmic ointments.

Not less than 32 months of the expiration dating period shall remain at time of delivery to the Government.

Workmanship. Ointment shall be free of defects which detract from its appearance or impair its serviceability.

Unit. Tube (TU). One ophthalmic ointment tube containing 1/8 oz (3.5 Gram), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
