COMMERCIAL ITEM DESCRIPTION

INVESTMENT, DENTAL, Inlay

The General Services Administration has authorized the use of this commercial item description in preference to Interim Federal Specification U-I-00546c(DSA-DM) and Federal Specification U-I-546b.

This commercial item description covers an inlay investment used in the casting of gold alloy inlay restorations with either the thermal or hygroscopic expansion techniques.

Salient characteristics:

The inlay investment shall be in accordance with the requirements of Types I and II of American Dental Association Specification No. 2 for casting investment for dental gold alloy, except as noted below:

Setting time. Setting time shall be 13 ± 5 minutes.

Compressive strength. Compressive strength shall be 33 kg/cm^2, minimum.

Color. Color of the investment shall be lavender.

Not more than 3 months shall have elapsed from the date of manufacture of the investment to the date of delivery to the Government.

Workmanship. The inlay investment shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twenty-four moisture-resistant envelopes (50 grams per envelope, minimum) and a graduated water measure, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

At time of award, supplier shall furnish a dated certificate and data showing that the brand of investment they propose to furnish is the same in quality and brand as that appearing on the current list of Certified Materials of the American Dental Association Specification No. 2. Investment shall be certified as both Types I and II of the ADA specification.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance

by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6520-00-926-9071

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
