COMMERCIAL ITEM DESCRIPTION

PULMONARY EXERCISE UNIT

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-P-37893.

This commercial item description covers a pulmonary exercise unit.

Salient characteristics:

Shall be a pulmonary exercise device, utilizing the body function of inspiration.

Shall have not less than four inspiration-rate settings between approximately 400 and 1100 cubic centimeters per second.

Shall include appropriate filtration devices to shield the patient from undesirable air. Shall provide visual indication to the patient of the rate of inspiration achieved.

Workmanship. The pulmonary exercise unit shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
