INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

BRUSHES: ARTISTS'

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification H-B-118E, dated October 4, 1976.

PAGE 4

Insert new paragraph.

3.7.3 Class 1, style C. The hair in type III, class 1, style C brushes shall be squirrel tail hair with natural points preserved and reversed hair removed. Hair shall be thoroughly baked and set to a flat, square edge. The brushes shall be suitable for use with oils, varnishes, and lacquers, shall be similar, but not restricted to figure 6, in that a round handle, at manufacturer's option, is permitted, and shall conform to the applicable dimensions of table V.

TABLE V. Minimum Dimensional Requirements for Type III, Class 1, Style C Brushes

Brush width (inches)	Length of hair outside ferrule, minimum (inches)	Length of hair inside ferrule, minimum (inch)
1/4	3/4	1/2
3/8	5/8	1/2
1/2	15/16	1/2
19/32	7/8	1/2
5/8	1	1/2
3/4	1-1/16	1/2
7/8	1	1/2
1	1-1/4	1/2
1-1/2	1-3/8	1/2

Paragraph 3.8.1, delete references to "Table V" and substitute "Table VI".

PAGE 6

Insert new illustration.

Figure 6 - Squirrel tail hair, sign writer, flat, square edge.

PAGE 7

Paragraph 6.3, under H-B-118D, insert "Type III, class 1, style C", delete "H-B-188E" and substitute "H-B-118E" and insert under it, on same line as insertion indicated above "No change".
