COMMERCIAL ITEM DESCRIPTION

METHYLPREDNISOLONE SODIUM SUCCINATE FOR INJECTION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-M-37373 which is cancelled.

Salient Characteristics:

Shall be Methylprednisolone Sodium Succinate for Injection, USP.

Shall be in accordance with the requirements of the USP.

All ingredients used in the manufacture of the injection shall be of pharmaceutical grade.

Shall be suitable for intramuscular or intravenous use.

For Strength 1, shall contain a quantity of Methylprednisolone Sodium Succinate equivalent to 40 mg of Methylprednisolone per vial within the applicable assay limits of the item.

For Strength 2, shall contain a quantity of Methylprednisolone Sodium Succinate equivalent to 125 mg of Methylprednisolone per vial within the applicable assay limits for the item.

For Strength 3, shall contain a quantity of Methylprednisolone Sodium Succinate equivalent to 500 mg of Methylprednisolone per vial within the applicable assay limits of the item.

For Strength 4, shall contain a quantity of Methylprednisolone Sodium Succinate equivalent to 1 gram of Methylprednisolone per vial within the applicable assay limits of the item.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Vial (VI).

For Size 1, Strength 1, and Strength 2, one single compartment vial or one two-compartment vial containing the sterile powder in one compartment and the sterile diluent in another compartment, as specified, constitutes one unit.

For Size 1, Strength 4, one single compartment vial or one two-compartment vial containing the sterile powder in one compartment and the sterile diluent in another compartment, as specified, constitutes one unit.

For Size 2, one two-compartment vial containing the sterile powder in one compartment and the sterile diluent in another compartment, as specified, constitutes one unit.

For Size 3, one vial containing the sterile powder accompanied by a separate vial containing diluent, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
