COMMERCIAL ITEM DESCRIPTION

DEXTRAN 40 and DEXTROSE INJECTION

The General Services Administration has authorized the use of this Commercial Item Description.

Salient Characteristics:

Shall be Dextran 40 and Dextrose Injection containing the following:

Dextran 40	10.0% w/v
Dextrose, USP	5.0% w/v

Shall be supplied 500 ml in a commercially available flexible plastic container with the following Essential Characteristics:

The outlet port shall be force-fitted with sterility protector with a tab for ease of removal for use and shall accept and retain the piercing device of the stocklisted IV administration sets. The outlet port shall be of such design as to hold and make a proper leak-proof fit with the IV administration set.

The opposite end of the plastic container shall have a heavy gauge plastic hanger strap which is an integral part of the body of the container and shall have a slot in the center of the hanger strap.

The integral hanger shall be of sufficient strength to bear the weight of filled container with the attached IV administration set.

The plastic container shall be supplied in an overpouch which shall serve as a water vapor barrier.

AMSC\NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

All ingredients entering into the manufacture of the injection shall be of a pharmaceutical grade.

Workmanship. The injection shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing 12 or 24 plastic containers with overpouches, as specified, constitutes one unit.

Contractor certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
