The plastic bag shall be designed to facilitate an upward position during addition of medication through the injection site.

The opposite end of the plastic bag shall have a heavy gauge plastic hanger strap which is an integral part of the body of the container and shall have a slot in the center of the hanger strap.

The integral hanger shall be of sufficient strength to bear the weight of the filled bag with the attached set.

The plastic bag shall be supplied in an overpouch which shall serve as a water vapor barrier.

Workmanship. The injection shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG).

For Size 1, one package containing six 1000 ml bottles, as specified, constitutes one. unit.

For Size 2, one package containing twenty five 5 ml containers, as specified, constitutes one unit.

For Size 3, one package containing twelve 1000 ml bags, as specified, constitutes one unit.

For Size 4, one package containing twenty-five 10 ml flip top vials (Fluid), as specified, constitutes one unit.

Contractor certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statues, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Expiration dating required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
