MILITARY SPECIFICATION

PACKING MATERIAL (LEAD, SHREDDED)

This specification was approved by the Departments of the Army, the Navy and the Air Force for use of procurement services of the respective Departments.

1. SCOPE

1.1 This specification covers shredded lead packing for spray valves and fuel measuring pump plungers of diesel engines.

2. APPLICABLE SPECIFICATIONS, STANDARDS, DRAWINGS, AND PUBLICATIONS

2.1 The following specifications and standard, of the issue in effect on date of invitation for bids, form a part of this specification:

SPECIFICATIONS

FEDERAL

NN-B-591 —Boxes, Fiberboard, Wood-Cleated (for Domestic Shipment).
NN-B-601 —Boxes, Wood-Cleated Plywood, for Domestic Shipment.
NN-B-621 —Boxes, Wood, Nailed and Lock Corner.
NN-B-631 —Boxes, Wood, Wirebound (for Domestic Shipment).
UU-T-111 —Tape; Paper, Gummed (Sealing and Securing).
UU-T-116 —Tape, Paper, Gummed, Water-Resistant.
LLL-B-631 —Boxes, Fiber, Corrugated (for Domestic Shipment).
LLL-B-636 —Boxes, Fiber, Solid (for Domestic Shipment).

MILITARY

JAN-P-105 —Packaging and Packing for Overseas Shipment—Boxes, Wood, Cleated Plywood.
JAN-P-106 —Packaging and Packing for Overseas Shipment—Boxes, Wood, Nailed.
MIL-B-107 —Boxes, Wood, Wirebound (Overseas Type).
JAN-P-108 —Packaging and Packing for Overseas Shipment—Boxes, Fiberboard (V-Board and W-Board), Exterior and Interior.
JAN-B-121 —Barrier-Materials, Greaseproof.
JAN-P-125 —Packaging and Packing for Overseas Shipment—Barrier-Materials, Waterproof, Flexible.
JAN-P-138 —Packaging and Packing for Overseas Shipment—Boxes, Wood, Fiberboard—Lined.

NAVY DEPARTMENT

General Specifications for Inspection of Material.

STANDARDS

MILITARY

MIL-STD-129—Marking of Shipments.

(Copies of specifications, standards, and drawings required by contractors in connection with specific procurement functions should be obtained from the procuring agency or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Material.—Shredded lead packing shall consist of strands of lead alloy formed into bundles, with the strands laid parallel and impregnated with a mixture of flake graphite and oil.

3.2 Dimensions.

3.2.1 *Bundles.*—Each bundle of packing shall be three-eights of an inch in diameter and 10 inches long, and shall be wrapped separately.

3.2.2 *Strands.*—The lead strands shall be 0.058 to 0.094 inch wide and 0.008 to 0.010 inch thick.

3.3 Composition.—The lead alloy shall be of the composition shown in table I.

TABLE I.—*Composition*

Tin	Antimony (max.)	Other impurities (max.)	Lead
Percent	*Percent*	*Percent*	*Percent*
4.0 to 5.0	0.25	0.25	Remainder

3.4 Not more than 5 percent, by weight, of the finished packing shall be flake graphite and oil.

3.5 Workmanship. — The workmanship shall be first class in every respect.

4. SAMPLING, INSPECTION, AND TEST PROCEDURES

4.1 Inspection procedures. — For Naval purchases, the general inspection procedures shall be in accordance with General Specifications for Inspection of Material.

4.2 Five ropes of finished packing shall be selected by the Government inspector from each lot of 500 pounds, or less, and forwarded to a Government laboratory designated by the bureau or agency concerned, for test purposes.

5. PREPARATION FOR DELIVERY

5.1 Packaging.—The subject commodity, bundled as specified in 3.2.1, shall be wrapped separately in a greaseproof paper conforming to Type II, grade A, class 1 of Specification JAN-B-121. Each bundle shall be sealed at both ends with 60-pound gummed kraft tape conforming to Specification UU-T-111.

5.2 Packing.

5.2.1 *For domestic shipment and storage.*—Unless otherwise specified in the contract or order, the subject commodity, packaged as specified in 5.1, shall be packed in wood-cleated-fiberboard, wood-cleated plywood, nailed wood, wirebound wood, corrugated fiber, or solid fiber boxes conforming to Specification NN-B-591, NN-B-601, NN-B-621, NN-B-631, LLL-B-631, or LLL-B-636, respectively. The gross weight of wood boxes shall not exceed approximately 200 pounds. The gross weight of fiberboard boxes shall be subject to the limitation of the box specification. Fiberboard boxes are acceptable for shipping containers where the total weight of the subject commodity on contract or order is 100 pounds or less. Unless otherwise specified in the contract or order, the use of fiberboard boxes shall be restricted to irregular emergency allocations or end quantity shipments. Fiberboard boxes shall be closed and sealed in conformance with the applicable box specification, and in addition, all joints and seams, including those occurring in the manufacture of the boxes shall be covered with minimum 2-inch wide gummed tape conforming to Specification UU-T-116 or UU-T-111, covering over all corners and edges at least 2 inches.

5.2.2 *For oversea shipment.*—Unless otherwise specified in the contract or order, the subject commodity, packaged as specified in 5.1, shall be packed in cleated-plywood, nailed wood, wirebound, fiberboard, or fiber-lined

wood boxes conforming to Specification JAN-P-105, JAN-P-106, MIL-B-107, JAN-P-108, or JAN-P-138, respectively. The gross weight of wood boxes shall not exceed approximately 150 pounds; and of fiberboard boxes, approximately 70 pounds. Fiberboard boxes shall be closed and sealed, and restricted in use as specified in 5.2.1. The wood boxes shall first be lined with waterproof-barrier-material conforming to Specification JAN-P-125, type C-1 or C-2, and then with an inner liner of greaseproof barrier-material conforming to Specification JAN-B-121, type 1, grade A, class 1. Both liners shall cover the contents of the box and shall not be sealed.

5.3 Marking.—In addition to any special marking required by the contract or order, shipments shall be marked in accordance with Standard MIL-STD-129.

6. NOTES

6.1 Ordering data. — Procurement documents should specify the following:

(a) Title, number, and date of this specification.

(b) Whether packing for domestic or oversea shipment is required (see 5.2.1 and 5.2.2).

6.2 Superseding documents.—This specification supersedes MIL-P-1342. The latter superseded Navy Specification 33P21.

Notice.—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use or sell any patented invention that may in any way be related thereto.
