1. SCOPE

1.1 Scope. This handbook establishes and describes the manufacturer's identification symbol used in the lot numbers for all DOD contracted manufacture, renovation, or regrouping of ammunition and ammunition components. The usage of manufacturer's identification symbols is defined and described in MIL-STD-1168, Ammunition Lot Numbering.

2. APPLICABLE DOCUMENTS

2.1 Government documents.

2.1.1 Specifications and standards. The following specifications and standards form a part of this document to the extent specified herein. Unless otherwise specified, the issues of these documents shall be those listed in the issue of the Department of Defense Index of Specifications and Standards (DODISS) and supplement thereto, cited in the solicitation.

STANDARDS

MILITARY

MIL-STD-1168 - AMMUNITION LOT NUMBERING AND AMMUNITION DATA CARDS

2.2 Order of precedence. In the event of a conflict between the text of this document and the references cited herein, the text of this document takes precedence. Nothing in this document, however, supersedes applicable laws and regulations unless a specific exemption has been obtained.

3. DEFINITIONS

3.1 Ammunition. A generic term which includes all manner of missiles to be thrown against an enemy, such as bullets, projectiles, rockets, cartridges, grenades, torpedoes, bombs, and guided missiles with their necessary propellants, primers, fuzes, detonators and charges of conventional explosive, nuclear explosive, chemical or other materials. In the "broadest sense" the term is not limited to those materials to be thrown, nor to use against an enemy, but will include all explosive devices, pyrotechnics, and pyrotechnic devices. The purpose is not limited and includes in addition to direct use against an enemy, such as illumination, signaling, saluting, mining, digging, cutting, accelerating,

Check the source to verify that this is the current version before use.

decelerating, demolition, decoying, practice, training, guarding, game hunting or just pure sport. All component parts, thereof, shall also be considered ammunition.

3.2. Ammunition Lot. A quantity of ammunition (complete rounds, components, propellants, etc.) which is manufactured or assembled by one producer under uniform conditions and which is expected to function in a uniform manner. An ammunition lot is designated and identified by assignment of an ammunition lot number. All material comprising an ammunition lot must be homogeneous.

3.3 Ammunition Lot Number. A code number systematically assigned to each ammunition lot at the time of manufacture, assembly, or modification that uniquely identifies the particular ammunition lot.

3.4 GOCO Plant. Government owned, contractor operated plant.

3.5 GOGO Plant. Government owned, government operated plant.

3.6 Lotting Concepts. This incorporates the basic philosophy that the units of product comprising a lot ammunition have been produced or assembled at the same plant under homogeneous conditions and subsequently numbered systematically to assure accurate identification and control of the lot and its major components during their entire life cycle. Moreover, it accepts the theory that all portions of the lot are reasonably identifiable or capable of being identified with the parent lot as long as the original lot number is retained in its basic form.

3.7 Manufacturer's Identification Symbol. A combination of one, two or three alpha characters assigned to indicate the unique identity of the arsenal, plant, depot, station, contractor, vendor, etc., which manufactured, assembled, renovated, regrouped, modified or loaded a specific item of ammunition or ammunition component. The manufacturer's identification symbol is an integral part of the ammunition lot number as defined in MIL-STD-1168. It is the first entry of the lot number preceding the numeric code used to identify the year of production. The alpha characters shall always be all capital letters.

4. GENERAL REQUIREMENTS

4.1 Usage. Each private contractor, GOCO and GOGO plant operation must be assigned a manufacturer's identification symbol prior to the start of production of component parts or assembly of complete round items. Assurance that each producer is engaged in the manufacture or assembly of ammunition items is assigned a symbol prior to the start of production and the proper use of the symbol during the production will be responsibility of the appropriate Product Quality Specialist. The NICP/NMP Product Assurance Commodity Manager,

Check the source to verify that this is the current version before use.

responsible for issuing instructions and directives for reworks, renovations, modifications, etc., will also be responsible for assuring that the installation performing such operations uses the correct manufacturer's identification symbol at all times. MIL-STD-1168, Ammunition Lot Numbering and Ammunition Data Card, directs proper usage of the ammunition lot number of which the manufacturer's identification symbol is a part.

4.2 Assignment. Symbols will be assigned by the Industrial Operations Command, AMSIO-IBQ, Rock Island, Illinois 61299-6000. This MIL-HDK identifies all manufacturer's identification symbols assigned as of the date of publication and will be updated periodically to reflect new assignments and changes. Questions regarding symbol assignments will be resolved by AMSIO-IBQ.

4.3 Changes in Symbol Assignment. Major management changes or geographical relocation of the production facility (including within city limits) will require changes in symbol assignment or the list of revisions. Table I provides the basic guidelines in symbol assignment. Requests for changes will be forwarded to AMSIO-IBQ by letter. Immediate essential changes may be accomplished by telephone if followed by a confirmation letter. Information required in a request for change is:

a. Name, address and phone number of the requestor.

b. Present symbol assignment.

c. Manufacturer's name and address (new and old if applicable).

d. Reason for requesting change (new symbol assignment, change in ownership, physical movement of plant, etc.).

4.4 Manufacturer Listing. Each facility and its associated manufacturer's identification symbol are listed in alphabetical order by manufacturer's name in Appendix A.

4.5 Symbol Listings. Each facility and its associated identification symbol are listed in alphabetical order by manufacturer's identification symbol in Appendix B.

5. DETAILED REQUIREMENTS

This section not applicable to this handbook.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS

1. The preparing activity must complete blocks 1, 2, 3, and 8. In block 1, both the document number and revision letter should be given.
2. The submitter of this form must complete blocks 4, 5, 6, and 7, and send to preparing activity.
3. The preparing activity must provide a reply within 30 days from receipt of the form.

NOTE: This form may not be used to request copies of documents, nor to request waivers, or clarification of requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced documents(s) or to amend contractual requirements.

I RECOMMEND A CHANGE:	1. DOCUMENT NUMBER	2. DOCUMENT DATE (YYYYMMDD)
	MIL-HDBK-1461A	1 APRIL 1999

DOCUMENT TITLE
AMMUNITION MANUFACTURERS AND THEIR SYMBOLS

4. NATURE OF CHANGE (*Identify paragraph number and include proposed rewrite, if possible. Attach extra sheets as needed.*)

5. REASON FOR RECOMMENDATION

6. SUBMITTER

a. NAME (*Last, First, Middle Initial*)	b. ORGANIZATION	
c. ADDRESS (*Include Zip Code*)	d. TELEPHONE (*Include Area Code*) (1) Commercial (2) DSN (*if applicable*)	7. DATE SUBMITTED (*YYYYMMDD*)

8. PREPARING ACTIVITY

a. NAME	b. TELEPHONE (*Include Area Code*)	
U.S. Army TACOM-ARDEC Standardization Team	(1) Commercial (973) 724-5822	(2) DSN 880-5822
c. ADDRESS (*Include Zip Code*) Attn; AMSTA-AR-QAW-E Picatinny Arsenal, NJ 07806-5000	**IF YOU DO NOT RECEIVE A REPLY WITHIN 45 DAYS, CONTACT:** **Defense Standardization Program Office (DLSC-LM)** **8725 John J. Kingman Road, Suite 2533** **Fort Belvoir, Virginia 22060-6221** **Telephone (703) 767-6888 DSN 427-6888**
