MILITARY SPECIFICATION

RELAY ASSEMBLY RE-94A/AIC-10

This amendment forms a part of Military Specification
MIL-R-9405A(USAF) dated 20 April 1957

Page 1, paragraph 2.1: In the title of MIL-A-9286, delete "AM-476A/AIC-10" and substitute "AM-476( )/AIC-10."

Page 2, add paragraph 3.1.2:

"3.1.2 Service Conditions (Equipment Operating).- The equipment shall operate under the class 2 equipment requirements of MIL-E-5400 except that the maximum temperature for continuous and intermittent operation shall be +71°C. The temperature vs altitude curves of the operational requirement for class 2 airborne electronic equipment shall be adjusted accordingly."
