INTERIM COMMERCIAL ITEM DESCRIPTION

BECLOMETHASONE DIPROPIONATE INHALATION AEROSOL, NASAL

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be Beclomethasone Dipropionate Inhalation Aerosol, Nasal.

Shall be a microcrystalline suspension of Beclomethasone Dipropionate-Trichloromonofluromethane clathrate in aerosol propellants suitable for intranasal inhalation.

The valve shall deliver in each metered dose a quantity of clathrate equivalent to 42 mg of Beclomethasone Dipropionate within the applicable assay limits.

Each container shall deliver not less than 200 metered dose.

For type I, shall be therapeutically equivalent to Beclomethasone Dipropionate by Glaxo, Inc. at the same dosage and administration schedule.

For type II, shall be therapeutically equivalent to Beclomethasone Dipropionate by Schering, Inc. at the same dosage and administration schedule.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Package (PG). Shall be supplied 17 g in a commercially-available container. Container shall be supplied together with a nasal adapter equipped with a metered-dose valve and protective cap. When container is used in conjunction with nasal adapter, the assembled unit shall deliver at least 200 single nasal inhalations. One package containing one container together with a nasal adapter equipped with a metered-dose valve, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurdisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
