INTERIM COMMERCIAL ITEM DESCRIPTION

UREA LOTION

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be Urea Lotion, 10 percent.

Shall contain not less than 90 percent and not more than 110 percent of the required amount of urea, when assayed by a suitable, accurate, reproducible assay method.

Shall be supplied in a plastic squeeze bottle.

Materials used in manufacture shall be of pharmaceutical grade.

Workmanship. The lotion shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT). One bottle containing 6 fl oz (180 ml), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
