INTERIM COMMERCIAL ITEM DESCRIPTION

PHENTOLAMINE MESYLATE FOR INJECTION, USP, LYOPHILIZED

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be Phentolamine Mesylate for Injection, USP, Lyophilized.

Shall be in accordance with the requirements of the USP.

Shall be a sterile, lyophilized powder containing 5 mg of Phentolamine Mesylate, USP and 25 mg of Mannitol, USP.

Shall be furnished in a 2 ml vial suitable for reconstitution of the powder. Upon reconstitution shall be suitable for intravenous or intramuscular use.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). Shall be supplied in a vial of sufficient capacity for reconstitution. One package containing 6 vials, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
