COMMERCIAL ITEM DESCRIPTION

BAG, WATER SAMPLE (Polyethylene, Sterile)

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a sterile polyethylene bag containing sodium thiosulfate, for use in collecting potable chlorinated or non-chlorinated water samples for bacteriological analysis.

Salient characteristics:

Shall be a 3 by 7 inch (nominal) sterile polyethylene bag for use in collecting 100 milliliter samples of potable chlorinated or non-chlorinated water for bacteriological analysis.

Shall contain 10 milligrams (mg) of sodium thiosulfate for use in neutralizing chlorine that may be present in a water sample.

Shall be sealed on all four sides to maintain the sterilty of the inside surfaces until the bag is ready for use. One end on the short dimension shall have a scored line so that, when the bag is ready for use, the end can be opened by tearing off at the scored line to provide an opening in the bag.

Shall have pull tabs and projecting taped wire tabs that are positioned and securely attached below the scored line. The pull tabs shall be used for two hand opening of the bag after removal of the scored end. The taped wire tabs shall facilitate keeping the bag open after the pull tabs are used, and then closing the bag by pulling the ends of the taped wire tabs.

Shall have taped wire tabs that secure the closure of a water filled bag by the user turning the bag around the taped wire tabs, in accordance with manufacturer's instructions.

Shall be supplied with suitable instructions for the opening, filling and closure of the bag.

Workmanship. The bag shall be free from defects which detract from its appearance or impair its serviceability.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Package (PG). One package containing one hundred bags, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspections. Inspections, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and Tests. Inspection and Tests shall be conducted in accordance with commercial practice to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspections and tests. Sampling for inspection and tests shall be conducted in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
