COMMERCIAL ITEM DESCRIPTION

BOTTLE, SAFETY CAP (Tablet and Capsule)

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a light-resistant glass bottle with one type of screw cap safety closure, suitable for dispensing tablet and capsule pharmaceutical preparations.

Salient characteristics:

Shall be a 64 dram capacity, wide mouth, light-resistant glass bottle with a safety closure, suitable for dispensing tablet and capsule pharmaceutical preparations.

Shall comply with the provisions of the Pharmacopeia of the United States (USP) pertaining to tight containers and light-resistant type NP glass containers.

The configuration (shape) of the bottle shall be square with straight walls, a cylindrical wide mouth opening and an exterior continuous threaded finish for the closure. The minimum overflow capacity shall be 237 cc. The bottle shall have an available prescription label surface height of 51 mm (2 inches) base to shoulder.

The safety closure shall conform to the child-resistant requirements of the Poison Prevention Packaging Act of 1970 (Public Law 91-601) under Title 16 CFR Chapter II, Subchapter E, 1700.20. The closure cap on the bottle shall be one that can only be opened by two coordinated actions of pushing down on the top while turning in a counter clockwise direction. The inner portion of the cap shall have a continuous type thread for closure, and a liner to form a seal when full contact is made with the upper edge of the bottle. Instructions for opening the safety closure shall be embossed on the top surface of the cap, with the lettering in either contrasting color to the body of the cap or with letter size at least 2.5 millimeter in height.

Reference standard. Where standard is referenced herein, the issue of that standard in effect on the date of solicitation shall be used to determine compliance with stated requirements.

Workmanship. The safety cap bottle shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing forty-eight bottles, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and tests. Inspections and tests shall be conducted in accordance with commercial practice to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspections and tests. Sampling for inspection and tests shall be conducted in accordance with commercial practice. The unit of product for test purposes shall be one safety cap bottle.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretations was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements
