INTERIM COMMERCIAL ITEM DESCRIPTION

BELLADONNA ALKALOIDS WITH PHENOBARBITAL ELIXIR

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information. This document may be used in preference to MIL-B-37474 dated 30 September 1976.

Salient Characteristics:

Shall be Belladonna Alkaloids with Phenobarbital Elixir.

Shall be a clear, pleasantly flavored elixir containing in each 5 ml the following ingredients:

Phenobarbital	16.2000 mg
Hyoscyamine Sulfate	0.1037 mg
Atropine Sulfate	0.0194 mg
Scopolamine (Hyoscine) Hydrobromide	0.0065 mg
Alcohol	23%

The elixir shall contain not less than 15.4 mg and not more than 17.0 mg of phenobarbital per 5 ml, when assayed by a suitable, accurate, and reproducible method.

The elixir shall contain not less than 0.1166 mg and not more than 0.1426 mg of total alkaloids per 5 ml, when assayed by a suitable, accurate, and reproducible method.

The elixir shall contain not less than 22.4 percent and not more than 23.6 per cent of alochol per 5 ml, when determined in accordance with the USP method for "Alcohol Determination." Or an alternate equivalent suitable, accurate, and reproducible method.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

The pH of the finished elixir shall be not less than 4.0 and not more than 5.5 when determined potentiometrically at 25°C using the USP method or an alternate equivalent suitable, accurate and reproducible method.

The alcohol, atropine sulfate, phenobarbital hyoscyamine sulfate, and scopolamine (hyoscine) hydrobromide used in the manufacture of the elixir shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto.

The hyoscyamine sulfate used in the manufacture of the elixir shall comply with the tests, standards, and requirements of the N.F., including any supplements or revisions thereto.

Workmanship. The elixir shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT).

For Size 1, one bottle containing 4 fl oz (118 ml), as specified, constitutes one unit.

For Size 2, one bottle containing one gallon (3.78 liters), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurdisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

For Size 2, when item is supplied in a plastic bottle and a unit package is not supplied, shipping container design shall include partitions, liner and top and bottom pads. Partitions, liner and pads shall be fabricated of fiberboard equal to the strength of the material used for fabrication of the shipping container. Partitions shall be full-height, half-slotted style. Liner shall be one piece, covering the sides and ends of the container. Top and bottom pads shall be not not more than 1/4 inch less than the inside length and width of the container, and positioned on bottom and top of liner and partitions.

NOTE: The following National Stock Numbers are covered by this document:

NSN	ITEM IDENTIFICATION	SIZE
6505-01-156-2184	BELLADONNA ALKALOIDS WITH PHENOBARBITAL ELIXIR, 4 fl oz (118 ml)	1
6505-00-871-8307	BELLADONNA ALKALOIDS WITH PHENOBARBITAL ELIXIR, 1 Gal (3.78 liters)	2
