DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

1. TITLE
MAINTENANCE, TEST AND SUPPORT EQUIPMENT REQUIREMENTS LIST

2. IDENTIFICATION NUMBER
DI-ILSS-80294A

3. DESCRIPTION/PURPOSE
3.1 The maintenance test and support equipment (MT&SE) requirements list identifies the test parameter requirements for maintenance, test, alignment, and calibration, to support all echelons of maintenance during the operational life cycle of a system or equipment. This list also identifies the unique and special tools, materials, and test equipment required to support all echelons of maintenance. (continued on page 2)

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
900716	G/T213		

7. APPLICATION/INTERRELATIONSHIP
7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This data item is applicable to all Government contracts requiring disclosure of specific MT&SE equipment and its justification.

7.3 This DID supersedes DI-ILSS-80294.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		G4968

10. PREPARATION INSTRUCTIONS
10.1 Content and Format. The Maintenance Test and Support Equipment requirements list (MT&SE) includes the support equipment, tools and materials, including computer maintenance and support hardware and software required to maintain the system or equipment at the level of maintenance identified in the contract. The list does not include (a) test alignment and calibration equipment built into the system configuration for test and monitoring, (b) equipment required to repair or calibrate items on the MT&SE list, or (c) common hand tools. The Maintenance Test and Support Equipment Requirements List shall contain two separate parts, a General Purpose MT&SE and a Special Purpose MT&SE.

10.1.1 General Purpose Maintenance Test and Support Equipment Requirements. This part includes generic test equipment that is commercially available which normally can be used for more than one purpose. (Reference sample format in Figure 1.)

10.1.2 Special Purpose Maintenance Test and Support Equipment Requirements. This part lists unique jigs, fixtures and special test equipment, including single source and proprietary items. (Reference sample format in Figure 2.)

10.2 Item information. Provides the following information for each item of test and support equipment on the list. Pertains to both General and Special Purpose MT&SE Requirements Lists.

(continued on page 2)

DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Description/Purpose (continued)

This requirements list provides the basis for the using activity to determine if existi.. ..eral purpose test equipment can be utilized, which in many cases will eliminate procurement ..irements. The unique and special tools, materials, and test equipment list provides the is for the acquisition and subsequent support of each new item.

---

0. Preparation Instructions (continued)

0.2.1 System or Equipment Under Test. Identifies the application of a recommended test item o system, subsystem, individual equipment, module, or component. Items subject to test shall e identified by the following:

a. Manufacturer/Commercial and Government Entity (CAGE) code.
b. Model/Part Number
c. Item Name

0.2.2 Parameters To Be Tested. Describe the test, adjustment, or calibration to be erformed. Be as general as possible, including only absolute requirements. This information eflects the actual characteristics required by the prime equipment rather than the haracteristics of the particular model of support or test equipment which may be recommended. nclude the following:

a. Nature of test.
b. Value or range of values.
c. Tolerance of these values.

.0.2.3 Recommended MT&SE.

.0.2.3.1 General Purpose MT&SE. List a generic name for each item, such as, oscilloscope, oltmeter, card extender, etc.

.0.1.3.2 Special Purpose MT&SE. When a specific item of MT&SE is required, describe the item ully in accordance with paragraph 10.2.1.a,b and c above. List all special purpose MT&SE parately from the general items. Additionally, include a statement justifying the selection each item of special purpose MT&SE. Include the unit price for each of these items.

..2.4 Quantity On-Site. Record the number of support equipments required to perform the test lescribed at the local site.

.0.2.5 Quantity Off-Site. Record the number of support equipments required to perform the est described at the next higher echelon of maintenance, such as the depot.

Preparation Instructions (continued)

0.3 Optional data. A separate list of commercially available test equipment having the ecessary capabilities to perform the preceding tests may be submitted. Using this option does ot suspend the requirement for the General and Special MT&SE Requirements Lists. This list hall include as a minimum:

a. Manufacture, CAGE code
b. Part/Model number
c. List of Options
d. Nomenclature and NSN if available
e. Unit cost

GENERAL PURPOSE MAINTENANCE, TEST, AND SUPPORT EQUIPMENT REQUIREMENTS LIST

SE ITEM NO.	SYSTEM/EQUIPMENT UNDER TEST	PARAMETERS TO BE TESTED	RECOMMENDED MT&SE	QTY ON SITE	Q OFF SITE
1	ACCUDATA 117 DC AMPLIFIER (OBC28)	30 HZ - 20 KHZ @ 1 VRMS +/- 5% BANDPASS	RMS VOLTMETER	0	1
2	SAME	10 V P-P FROM 30 HZ - 20 KHZ VISUAL DISTORTION	OSCILLOSCOPE	0	1
3	SAME	DC PWR SUPPLY 5 VDC +/- 0.01V 10 VDC +/- 1V 14.5 VDC +/- 0.1V W/100 KOHM MIN INPUT IMPEDANCE	DC VOLTMETER	0	1
4	GENERAL/MULITPLE USE	AC LINE CORD CONTINUITY	MULTIMETER	1	0

SPECIAL PURPOSE MAINTENANCE, TEST, AND SUPPORT EQUIPMENT REQUIREMENTS

ITEM NO.	SYSTEM/EQUIPMENT UNDER TEST	PARAMETERS TO BE TESTED	RECOMMENDED MT&SE	QTY ON SITE	QTY OFF SITE
1	85-02277-002 (33875) HEATSINK ASSY	RECTIFIER INSTALLATION ADJUSTMENT	ALIGNMENT TOOL GE 118C8388P1	1	0
2	441C RECORDER PRECISION ECHO (54089)	TAPE TENSION ADJUSTMENT	TAPE TENSION GAGE T2-H20-1 TENTEL (54632)	1	1
3	HP-3964A (28480) RECORDER	POWER REGULATION 85-135 VAC	TRANSFORMER VARIABLE MT3A GENRAD (24655)	1	1

ıstification Statement:
. This alignment tool is specifically designed for replacement of the rectifier and if not
ɜed will cause early failure of the rectifier due to insufficient heat transfer via the heat
No other tool available meets requirements.
cost $50.00 EA
. This is the only known gage that will accurately measure tape tension for this adjustment.
ıit cost $350.00 EA
. No other transformer available meets requirements.
ıit cost $212.00 EA
