INTERIM COMMERCIAL ITEM DESCRIPTION

THEOPHYLLINE CAPSULES, MODIFIED

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient characteristics:

Shall be sustained-release Theophylline Capsules.

For Strength 1, shall contain 50 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

For Strength 2, shall contain 60 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

For Strength 3, shall contain 100 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

For Strength 4, shall contain 125 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

For Strength 5, shall contain 200 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

For Strength 6, shall contain 250 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

For Strength 7, shall contain 300 mg of anhydrous Theophylline per capsule, within the applicable assay limits.

The sustained-release capsule must be considered by the FDA to be therapeutically equivalent with Theophylline Capsules by Rorer Pharmaceutical Corporation, Subsidiary of Rorer Group, at the same dosage and administrative schedule.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Each capsule shall be marked/embossed with a product identification code to identify the active ingredient(s), strength, and manufacturer. The materials used in marking/embossing the dosage forms shall be acceptable to the FDA. The actual code used for the product shall be left to the discretion of the supplier.

Workmanship. The capsules shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Bottle (BT).

For Size 1, One bottle containing 100 capsules, as specified, constitutes one unit.

For Size 2, One bottle containing 1000 capsules, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
