COMMERCIAL ITEM DESCRIPTION

BOTTLE, SCREW CAP, (Plastic Square)

The General Services Administration has authorized the use of this commercial item description as a replacement for Interim Federal Specification L-B-001190 (DLA-DM) which will be cancelled.

This commercial item description covers one type of polyethylene bottle, suitable for use as a container for medicaments.

Salient characteristics:

The bottle shall be square shape, 6 ounce capacity, plastic type, with a screw cap closure.

The bottle shall be fabricated of polyethylene, and shall be square in shape, with straight walls, a cylindrical wide mouth opening, and an exterior continuous threaded finish for the closure. The thread finish shall have at least one complete turn of full thread projection. The shoulder and all corners of the bottle shall be rounded. The bottle shall have a flat bottom and shall be stable when placed on a smooth, flat surface.

The screw cap closure shall be fabricated of polypropylene, internally threaded with a continuous type thread formed as an integral part of the cap. The thread shall match that on the bottle to make a secure closure. The cap shall contain an integral liner to form a seal when full contact is made with the upper edge of the bottle. Vertical ribs or ridges shall be provided on the outer wall of the screw cap to facilitate removal or tightening of the closure.

The bottle shall have the following nominal dimensions:

Height	- 4 inches (10.16 cm)
Width (square)	- 2 inches (5.08 cm)
Inside diameter at mouth	- 1-3/16 inches (3.02 cm)
Overall height (bottle and cap)	- 4-1/8 inches (10.48 cm)

The bottle shall be permanently and legibly marked with the name or registered trademark of the manufacturer.

Workmanship. The screw cap bottle shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One screw cap bottle, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and tests. Inspections and tests shall be conducted in accordance with commercial practice to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspections and tests. Sampling for inspections and tests shall be in accordance with commercial practice. The unit of product for tests purposes shall be one screw cap bottle.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

INSTRUCTIONS In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
