SUPERSEDING
AMENDMENT-1 (GSA-FSS)
July 14, 1966

AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

GRINDING MACHINE, BENCH, HAND OPERATED

This amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D. C., 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this amendment as a valid exception to Interim Federal Specification 00-G-00661b (GSA-FSS) dated February 3, 1965.

PAGE 3

Paragraph 3.5.5: Delete text in its entirety and substitute:

Bearings, operational surfaces of the bearings shall be smoothly finished. Bearings shall be in proper alignment and located at the correct center distance so that the gears will operate smoothly without excessive noise. Aluminum alloy gear cases shall have bearing sleeves of brass, bronze, or cast iron. Sleeves shall have bearing walls of not less than 1/8-inch thickness.

PAGE 5

Paragraph 3.6.2, line 11: Delete "11 to 1" and substitute "10 to 1".

PAGE 10

Paragraph 6.4: Delete in its entirety.

Paragraph 6.4.1: Delete in its entirety.
