MIL-B-36630
Amendment No. 1
19 October 1972

MILITARY SPECIFICATION

BOX, MICROSCOPE SLIDE, PLASTIC, 5 Slide

This amendment forms a part of limited coordinated Military Specification MIL-B-36630, dated 5 March 1970 and is approved for use by all Departments and Agencies of the Department of Defense.

4.4.1 Durability. Delete entirely and substitute:

"4.4.1 Durability. Five 25 by 75mm microscope slides shall be placed in the same box. Slides with minimum dimensions shall be used (see 6.4). One end of a string shall be secured to the end opposite the door. The other end of this string shall be secured to an area which is so positioned that the box can be dropped and brought to a stop without touching any object while falling or stopping. Length of string between attached points shall be 6 ± 1/8 inch with the length of the box included in the test length. Door shall be closed and the box allowed to fall the length of the string with the door in the down position. If box touches any object while falling or stopping, results shall not be considered valid and test shall be repeated. Opening of the door or release of slides from the box shall be considered failure to comply with requirements of 3.3.1."

5.2.1.1 Exterior container. Line 4, following "weather-resistant" delete "grade V3c". At end of paragraph add: "Special requirements as specified in Table II of PPP-B-636 shall apply for fiberboard boxes."

5.2.2.1 Exterior container. At end of paragraph add: "Closure of fiberboard boxes shall conform to Method II as specified in PPP-B-636. In addition, fiberboard boxes shall conform to the special requirements as specified in Table I of PPP-B-636."
