MIL-S-36653
AMENDMENT-1
29 January 1973

MILITARY SPECIFICATION

SCREW, BONE, 82° COUNTERSUNK HEAD, PILOT POINT

This Amendment forms a part of Military Specification MIL-S-36653, dated 20 March 1970, and is approved for use by all Department and Agencies of the Department of Defense.

Page 4:

3.2 Hardness. Delete entirely and substitute:

"3.2 Hardness. Rockwell hardness of the bone screws shall be C30 to C35 when tested as specified in 4.4.3."

* 3.3 Finish. Delete first two sentences and substitute:

"Screws shall have a bright, smooth finish. Electrochemical polishing may be employed for finishing of the screws, provided that a separate passivation process is employed, as specified in 3.3.1, as the final operation."

3.3.1 Passivation. In second line, after "and" and before "shall", insert "the passivation".

* 5.2.1.1 Exterior container. End of paragraph, add: "Special requirement of applicable table shall apply for PPP-B-636 box."

* 5.2.2.1 Exterior container. End of paragraph, add: "Fiberboard box shall be closed by method II of PPP-B-636. Special requirements of applicable table shall apply for PPP-B-636 box."

* Add the following paragraph:

"6.5 The margins of this specification are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue."
