PART NUMBER	NOMENCLATURE
MS36383-1	Dish, w/cover, tray and wire tray remover
REPLACEABLE COMPONENT PARTS	
MS36383-2	Dish w/cover
MS36383-3	Tray

MATERIAL: Dish, cover and tray shall be of clear soda lime glass in accordance with Federal Specification DD-G-541, Type II.

Tray remover shall be of wire approximately 0.1 inches in diameter. Wire may be of nickel copper alloy or other noncorrosive metal.

DESIGN: MS36383-1 shall consist of a rectangular dish, a cover, a tray remover, and a open bottom tray.

Dish shall be heavy-walled and rectangular in shape. Inside dimensions shall be 90 mm long by 70 mm wide by 64 mm high, approximately.

Cover shall be of same construction with a heavy shoulder that sets neatly inside the dish.

Tray shall be heavy-walled with an open bottom, and shall have 10 grooves molded on the inner surface of both ends to accommodate 10 slides individually or 20 slides in pairs, back to back. Tray shall accommodate slides from 73.5 to 77 mm long and 25 to 50 mm wide. Tray shall have one chamfered hole on either side located near the top to accommodate wire holder.

Wire tray remover shall be of one-piece construction and of proper design and shape for lifting the tray out of the dish.

NOTES:
1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.
2. For design feature purposes, this standard takes precedence over procurement document referenced herein.
3. Referenced documents shall be of the issue in effect on date of invitations for bid.

APPROVED 4 DEC 1967 REVISED

This military standard is approved by the Department of Defense and is mandatory on all activities. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
