COMMERCIAL ITEM DESCRIPTION

MUMPS VIRUS VACCINE, LIVE, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-M-37255A which is cancelled.

Salient characteristics.

Shall be Mumps Virus Vaccine, Live, USP, consisting of a stabilized, lyophilized vaccine, chick cell tissue culture origin, containing a live, highly attenuated mumps virus of the Jeryl Lynn (B level) Strain.

The vaccine shall be in accordance with the requirements of the USP.

The diluent accompanying the vaccine shall be suitable for rehydrating the vaccine.

Shall be supplied one immunizing dose of vaccine in a vial.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG).

For Size 1 - Shall be supplied one immunizing dose in a vial. One package containing one vial of vaccine and one vial containing sufficient diluent to deliver 0.7 ml, as specified, constitutes one unit.

For Size 2 - Shall be supplied one immunizing dose in a vial. Ten vials of vaccine shall be packaged together. Ten single dose vials, each containing sufficient diluent to deliver 0.7 ml, shall be packaged together. One package containing one package (10 vials) of vaccine and one package (10 vials) of diluent, as specified, constitutes one unit.

AMSC N/A FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered material. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: Material shall be shipped under constant refrigeration 2°-8°C (35°-46°F).

Ordering data. Expiration dating required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
