MILITARY SPECIFICATION

NEOMYCIN SULFATE, HYDROCORTISONE, AND POLYMYXIN B SULFATE OPHTHALMIC SUSPENSION

This specification is approved for use by the Defense Personnel Support Center, Defense Supply Agency, and is available for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Neomycin Sulfate, Hydrocortisone, and Polymyxin B Sulfate Ophthalmic Suspension (See 6.2).

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

PPP-C-186 - Containers, Packaging and Packing for Drugs, Chemicals and Pharmaceuticals. (See 6.3)

STANDARDS

MILITARY

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.

MIL-STD-129 - Marking for Shipment and Storage.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Hq, Defense Personnel Support Center, ATTN: Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document, or by letter.

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE,
FOOD AND DRUG ADMINISTRATION

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

National Formulary.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be sterile ophthalmic suspension containing in each ml the following:

Neomycin Sulfate	5 mg
Hydrocortisone	10 mg (1 percent)
Polymyxin B (as Polymyxin B Sulfate)	10,000 Units

3.2 Assay. The solution shall assay to contain not less than 90.0 percent and not more than 130.0 percent of the required amount of Neomycin Sulfate, not less than 90.0 percent and not more than 110.0 percent of the required amount of Hydrocortisone, and not less than 90.0 percent and not more than 130.0 percent of the required amount of Polymyxin B (as the sulfate) when determined as specified in the applicable F.D.A. regulations concerning Certification of Antibiotic and Antibiotic-Containing Drugs.

Check the source to verify that this is the current version before use.

3.3 Certification. Shall be in accordance with the General Regulations for the Certification of Antibiotics and Antibiotic-Containing Drugs, as promulgated by the Food and Drug Administration, U.S. Department of Health, Education and Welfare. Each lot of each antibiotic used in the manufacture of the ophthalmic suspension shall comply with the applicable FDA requirements, and shall be certified by the FDA.

3.4 Ingredients.

3.4.1 Neomycin Sulfate, Hydrocortisone and Polymyxin B Sulfate. The Neomycin Sulfate, Hydrocortisone and Polymyxin B Sulfate used in the manufacture of the suspension shall comply with the tests, standards, and requirements of the U.S.P., including any supplements or revisions thereto.

3.4.2 Other ingredients. All other ingredients used in the manufacture of the finished suspension shall be of U.S.P. or N.F. quality, or if not included in either of these compendia, they shall be of the highest pharmaceutical grade throughout, and shall be suitable for use in the suspension.

3.5 Sterility. The ophthalmic suspension shall be sterile when tested in accordance with a suitable method approved by the FDA.

3.6 Expiration dating period. The expiration dating period shall be 36 months.

3.6.1 Delivery. Not more than 3 months of the expiration dating period shall have elapsed at the time of delivery to the Government.

3.7 Workmanship. The material and its containers shall be free from defects which detract from their appearance or may impair their serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to perscribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as

Check the source to verify that this is the current version before use.

to non-dated items, for not less than 3 years after delivery of the item to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of finished ophthalmic suspension produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling

For visual examination	Inspection level	AQL (percent) defective)	Unit of product
Major	S-2	1.0	Filled immediate container
Minor	II	2.5	Unit package

4.4 Examination. The finished suspension shall be examined to determine compliance with all requirements of this specification. Nonconformance will be permitted to the extent indicated in 4.3.

4.4.1 Classification of defects. Examination will be conducted in accordance with the following classification of defects:

TABLE III. Classification of defects.

Categories	Defects 1/
Major	
101	Suspension not free from foreign matter.
102	Suspension not homogeneous.
Minor	
201	Exterior of immediate container is not free from contents or foreign matter.
202	Label not free from defacing marks and tears.

1/ Inspection is not restricted to the classified possible defects listed above.

Check the source to verify that this is the current version before use.

4.5 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.6 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

4.7 Tests. Tests shall be performed to determine compliance with all requirements of this document and all referenced documents.

5. PACKAGING

5.1 Packaging requirements. Requirements for packaging shall be in accordance with all applicable paragraphs of PPP-C-186 (see 6.3) and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (see 6.1).

5.2.1 Unit of issue. One package containing one bottle along with a sterile dropper, as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container shall be a commercially available immediate container considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other. In addition, a sterile dropper shall be supplied with each immediate container.

5.2.2.2 Unit package. Each bottle containing 5 ml along with a sterile dropper shall be packaged as specified in 5.2.5 of PPP-C-186.

5.2.2.3 Intermediate package. Twelve unit packages shall be packaged in an intermediate package as specified in 5.2.7.1 of PPP-C-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C, as specified (See 6.1).

5.3.1 Level A. Twelve intermediate packages (144 units) shall be packaged in an exterior container as specified in 5.4.4 of PPP-C-186.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T11:00Z
Check the source to verify that this is the current version before use.

5.3.2 Level B. Twelve intermediate packages (144 units) shall be packed in an exterior container as specified in paragraph 5.4.3.2 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act, and shall include the information required below:

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the expiration date.

5.4.1.2 Unit packages. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the National Stock Number
(c) extended potency lines.

NOTES: (1) The National Stock Number shall not be preceded by any prefix.
(2) Strip labeling may be used
(3) Label adhesion test shall not apply.

5.4.2 Intermediate package. Each intermediate package shall be marked as specified in 5.5.3 of PPP-C-186. Type II Shelf Life marking as specified in MIL-STD-129 shall be shown. Marking shall include the legend:

"STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30°C.(59° - 86°F)".

5.4.3 Exterior container. Each exterior container shall be marked as specified in 5.5.4 of PPP-C-186. Type II Shelf Life markings as specified in MIL-STD-129 shall also be shown. Marking shall include the legend:

"STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30°C. (59° - 86°F.)"

6. NOTES

6.1 Ordering data. Procurment documents should specify the following:

(a) Title, Number and date of this specification.
(B) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

6.2 This specification covers the following item(s) :

National Stock Number	Item Identification
6505-00-764-9042	NEOMYCIN SULFATE, HYDROCORTISONE, AND POLYMYXIN B SULFATE OPHTHALMIC SUSPENSION, 5 ml

6.3 All references to PPP-C-186 refer to Interim Federal Specification PPP-C-00186B which is mandatory for use until superseded by a revision.
