COMMERCIAL ITEM DESCRIPTION

BATTERY, DRY, BA-223/U

The General Services Administration has authorized the use of this commercial item description for all federal agencies.

1. SCOPE. This commercial item description (CID) establishes the government acquisition requirements for a +22.5/45 Vdc dry-cell battery. The battery is intended for use in portable electronic and communication equipment, flashlights, test equipment and radio sets powered by non-rechargeable dry cell batteries.

2. SALIENT CHARACTERISTICS. The battery shall meet the requirements of the general document and Battery Specification Sheet 15 of American National Standard Institute (ANSI) C18.1M, Part 1, "Portable Primary Cells and Batteries with Aqueous Electrolyte - General and Specifications", with the following modifications:

2.1 Voltage. The battery shall provide two nominal voltages: +22.5 Vdc and +45 Vdc.

2.2 Weight. The battery weight shall not exceed 3 pounds 4 ounces.

2.3 Cell type. Cells shall meet the requirements of Battery Specification Sheet 15 of ANSI C18.1M, Part 1.

2.4 Dimensions. The battery shall meet the dimensional requirements shown in figure 1.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data that may improve this document should be sent to: Defense Supply Center Richmond (DSCR), ATTN: DSCR-VBD, 8000 Jefferson Davis Highway, Richmond, VA 23297-5610.

AMSC N/A FSC 6135

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

NOTE: Tolerance is ±1/16 inch, unless otherwise specified.

FIGURE 1. Battery dimensions.

3. REGULATORY REQUIREMENTS

3.1 Recycled materials. Offerors and contractors are encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

3.2 Environmental protection. All battery products and production methods shall meet all applicable Environmental Protection Agency restrictions in effect on the date of the associated contract. These regulations specify material emissions which are hazardous to the environment or to the user's health and shall be applied during the manufacturing, service, transportation, storage, and use of the battery supplied.

4. PRODUCT CONFORMANCE PROVISIONS

4.1 Product conformance. The product provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance.

4.2 Market acceptability. The product offered must have been previously sold either to the government or on the commercial market.

5. PACKAGING

5.1 Preservation, packing, and marking. For acquisition purposes, the battery shall be preserved, packed, and marked as specified in the contract or order.

6. NOTES

6.1 Sources of documents.

6.1.1 FAR. The FAR may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-0001.

6.1.2 ANSI standards. Copies of ANSI standards may be obtained from the American National Standards Institute, 11 West 42nd Street, New York, NY 10036.

6.2 National stock number (NSN). This CID is associated with NSN 6135-00-100-0464. Other NSNs may also correspond with this document.

6.3 Sources of supply. The manufacturers and/or suppliers listed below are known to supply products which meet the salient characteristics requirements of this document. Competition is not limited to the listed firms.
