Certification. The contractor shall certify that the product offered meets the salient characterisitics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Preservation, packaging, packing, and marking. The preservation, packaging, and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

Note: When ordering, specify National Stock Number of tire chain and replacement cross chain when required.

Copies of the National Association of Chain Manufacturer, Tire Chain Specifications, NACM-517 (TC) are available from the National Association of Chain Manufacturers, 500 North Michigan Avenue, Chicago, IL 60611.
